Camp Pa-Qua-Tuck was created by the members of the Moriches Rotary Club in 1946. The camp is located on the shores of Kaler's Pond on eastern Long Island. Camp Pa-Qua-Tuck, funded entirely by donations, is a special place where children with physical and developmental disabilities can experience first hand the pleasures that an active life has to offer. Children participate in a wide range of activities especially designed for youngsters who are in wheelchairs as well as those who are ambulatory. These activities include swimming, boating, arts and crafts, petting zoo, talent shows, cook-outs, games and a Carnival Day. The Camp Program also provides educational activities in areas such as nature, arts, fire safety and communication skills.
